ViTrox Expands Innovation Beyond AOI, SPI, and AXI with ViE's VisionXpert Solution

PENANG, MALAYSIA - **DECEMBER 2024** - ViE Technologies, a 100% owned subsidiary of ViTrox Corporation, proudly unveils **VisionXpert Solutions**, featuring the Smart Code Readers/XpertScanner (XS-Series) — an advanced smart code reader solution set to redefine the standards of industrial code reading.

As a global leader in Automated Optical Inspection (AOI), Solder Paste Inspection (SPI), and Automated X-ray Inspection (AXI) systems, ViTrox is renowned for delivering cutting-edge solutions to the electronics manufacturing industry. Expanding its portfolio, ViTrox, through its subsidiary ViE, now offers smart code reading solutions designed to complement its world-class inspection equipment. The Smart Code Readers/XpertScanner (XS-Series) represents ViTrox's unwavering commitment to innovation and excellence, delivering the same precision and reliability to industrial code reading.

The Smart Code Readers/XpertScanner (XS-Series) transcends traditional code reading methods of 2D codes and barcodes, offering a transformative all-in-one solution tailored for dynamic operational demands, even in the most challenging environments. Engineered for superior performance, the Smart Code Readers/XpertScanner (XS-Series) provides a range of features tailored to optimise and elevate operational efficiency. The XS-Series comprises three distinct models, each tailored to meet specific business needs.

- XS-90 Series: The most cost-effective Smart Code Reader/Xpert Scanner solution in the market, delivering consistent decoding performance, making it perfect for businesses seeking high-quality scanning without compromising their budget. Its compact size ensures flexibility for installation in small and constrained areas.
- XS-100 Series: The best-in-class Smart Code Reader/XpertScanner, equipped with advanced deep learning code reading algorithms that deliver reliable, consistent and accurate decoding results to meet the stringent demands of PCB manufacturing and automotive industries.
- XS-200 Series: The ultimate Intelligent Smart Code Reader Solution/XpertScanner, offering ultimate decoding performance with advanced deep learning code reading algorithms, providing reliable, consistent and accurate decoding results for the most demanding environments such as logistics and warehousing industries.

Key Features of Smart Code Reader/XpertScanner (XS-Series):

- **HIGH-SPEED AND HIGH ACCURACY CODE IMAGES ACQUISITION:** Elevate operational efficiency with rapid and precise code image acquisition, setting a new benchmark in code reading applications.
- **COMPACT OUTLOOK AND FLEXIBLE ADAPTATION**: The XS-Series's compact design allows seamless adapts to various mounting environments, providing unparalleled versatility for integration into diverse industrial setups.
- **RESILIENCE AND RELIABLE PERFORMANCE**: Engineered to excel in challenging industrial application environments, the Smart Code Reader solution prioritises resilience and reliability, ensuring consistent performance in demanding conditions.
- **BUILT-IN ADVANCED DEEP LEARNING CODE READING ALGORITHM**: Equipped with a sophisticated deep learning code reading algorithm, the Smart Code Reader/XpertScanner delivers optimal performance, enhancing the accuracy and speed of code recognition for a wide range of applications.

"Our **VisionXpert** solutions are tailored to meet diverse business needs, and we are confident that the XS-series will provide our customers with a competitive edge in their respective industries. The official launch of the Smart Code Reader/XpertScanner (XS-Series) represents ViE's dedication to innovation and excellence in providing cutting-edge vision solutions to our global customer base," said Mr. Looi Tuck Chung, ViE Technologies General Manager.

In addition, ViE Technologies is offering a special promotional campaign to celebrate the launch of the Smart Code Reader/XpertScanner (XS-Series).
