[Testimony] ViTrox Technologies Successfully Integrates ViE Technologies' Latest Innovation – VisionXpert Solution XS-95 Smart Code Reader – for Enhanced Semiconductor Manufacturing

---

ViTrox, committed to being the World's Most Trusted Technology Company and the leading solutions provider for the electronics industry, has successfully integrated ViE Technologies' latest innovation, the XS-95 Smart Code Reader, into its Automatic Nozzle Changer (ANC) Solutions.

The VisionXpert Solution XS-95 Smart Code Reader, with its compact dimensions of 25mm (H) x 46mm (L) x 38mm (W), offers the flexibility to be mounted in small and constrained areas. ViTrox seamlessly incorporated the XS-95 into the ANC module without altering its manufacturing design. Additionally, the XS-95 delivers consistent decoding performance under stringent manufacturing conditions.

Key benefits of the XS-95 include:

- High-speed and high-quality image acquisition.
- Compact design and flexible adaptation suitable for various mounting environments.
- Resilience and reliability in challenging industrial application environments.
- Advanced code reading algorithm for optimal performance.

"We have observed significant enhancements in operational efficiency and reliability since adopting the XS-95," states Davin Tan, Senior Mechanical Engineer from ViTrox Technologies's Machine Vision System Business Division. "Its compact design and precise decoding capabilities have proven instrumental in overcoming previous challenges, setting a new standard for our semiconductor manufacturing processes."
